

- Exhilarating heap of opportunities for 'after school extracurricular' activities
 - Fascinating coaching on dramaturgy, dance, music and eurhythmics orienting entertainment, energization and holistic development of the practitioners.
 - Creative activities like painting, drawing and other forms of simple, imaginary and Imagineering 'arts and crafts'.
 - Indigenous and foreign martial arts like wrestling, archery, karate and Judo
 - Meditation, prayers, recitation and other spiritual strengtheners
 - Brain trainers like Abacus, chess and Sudoku Classes
- Regular field trips to build qualities like 'reverence to nature, appreciation of talents, absorption of discipline, understanding of the society and concern for the needy.
- We train our students to adapt, absorb, withstand and create circumstances. Similarly we also educate and train parents and guardians to effectively monitor, guide and support the intellectual, ethical and performance growth of their beloved. We earnestly believe that great products emerge only from tripartite companionship and action; of teachers, parents and students.

Vision

A school, endowed with rewarding ideals, tools and team, to foster and magnify the finest forceful facets of 'MAN' in a student; assimilation, realization, action and transformation.

About the School

This is a co-educational, independent, day school founded by Justice T.L.Venkatrama Iyer Endowment Foundation, Chennai. (www.tlvefoundation.org) The school has proposed at present to focus on a sturdy and salient foundation for the buddies and has commenced classes from pre- KG to Fifth Standard.

'Upanishad Architects' is a result of the long cherished dream of the trust to start an educational institution that which is distinct, dynamic and divine. 'Upanishad' is endowed with two major strengths; muscular value and intuitive learning systems of our glorious tradition on one side and the vibrant and privileged latest curriculum design of IGCSE (EDEXEL – PEARSON GROUP, UK) on the other. We are meticulous that bias or attraction for past and present should never prevent a benefit for or allow a defect into the learner's generation of today. The best of all times and trends have been presented in its pristine and powerful form for 'capacity and character building' apart from mere 'curriculum and career building'.

The vital age-frame of a learner for knowledge acquisition, moulding and goal setting is between '5 and 17' years. Their ability to grasp, store and execute is far superior and magnificent but our shaping and directions limit their attention and achievements within the boundaries of promotion, employment and enrichment, precluding their access to grand social architecture and reconstruction ventures. We teach them involvement, memory development and efficiency drive and they learn everything by themselves. 'Upanishad' aims at harnessing the complete latent potential of every individual and providing them appropriate goals and befitting social targets.

You can experience or witness the 'giant' in you when you 'grow' beyond the mountains and 'GOD' in you when you 'give' beyond the sky. 'Upanishad' assures these thrilling impacts by manuring your magnificence and munificence.

Sree Vidya

We consider any branch of study as a division of wisdom, part of divinity, source of development, art of achievement and model of service. Hence irrespective of standards and fields, learning itself is auspicious and equal to worship and penance. 'Sree Vidya' is an epithet offered to the unique pedagogical system that instigates the manifestation of 'nobility, ability, stability and responsibility.

A true knowledge system will surely have a radiant and permanent effect. The concept base of our education model will ensure the reflection of the 'knowledge flavour' in the thought, expression behaviour and action dimensions of the pupils and inspirational and transformational permeation of the same in their surroundings, neighbourhood and society. We have framed the features in a bi-fold fashion; that are commonly approachable for all as obligatory components and exclusive traditional designs and practices as electives for the aspirants. Thus we facilitate the fruits of our techniques for both traditional and secular beneficiaries.

Salient features aiming at total progress of our students

Infrastructure

- Large well-lit air conditioned concept based, activity-specific 'smart' classrooms
- Play area with state of art play equipments as per international standards to guarantee health, enthusiasm and intelligence growth, apart from safety of children
